Seymour Yachts.

Introduction.

The 2011 Princess 78 SPICA is without doubt one of the most impressive and beautiful yachts on the market today having undergone an extensive refit over the off season.

The elegance of SPICA is the most striking aspect of this wonderful yacht. Princess International have always excelled with a very traditional, but disticntive styling of their yachts to ensure they stand the test of time, whilst incorperating the most ingenious modern interior design and innovative technology which rivals and surpasses any other builder within the industry.

M/Y SPICA is no exception to this trend, she is a beautifully elegant yacht that looks as current in the market today as she did when she was first launched in 2011. Her interior volume is mind blowing, with huge amounts of natural light oozing into every room, cabin and stair-well, both above and below deck.

It is her deck space that really grabs our attention which allows for several different socialising areas all around the yacht, from the forward cockpit to the aft cockpit and the bathing paltform to the flybridge, space is in abun-dance. Her flybridge is vast and hosts a u-shaped seating arrangement around a colossal hand crafted teak table. There is a jacuzzi cleaverly hidden away under the aft sunbathing cushion and a hydraulic bimini that effortlessly provides shade at the push of a button.

The beautifully crafted design and exquisite finish would mean nothing without the performance to go with it, this is where her twin CAT c32 Acert 1723hp engines take center stage and push the boundaries with top speeds of 33-35 Knots.
